About Weyerhaeuser Company

Weyerhaeuser is one of the largest pulp and paper companies in the world. It is the world's largest private sector owner of softwood timberland; and the second largest owner of United States timberland, behind Plum Creek Timber. Weyerhaeuser has employees in 13 countries, including the United States, Canada, Australia, New Zealand, China, Mexico, Ireland, France, and Uruguay.

Business Challenge

To support the Weyerhaeuser Company in the successful implementation of Primavera's TeamPlay IT project management suite for 1200 Information Technology Group users in the U.S. and Canada.

Solution

Innovative Management Solutions, Inc., is currently working closely with the EPM project team to clearly define the business requirements, develop and maintain project controls, define project success criteria and also to create, execute and manage a comprehensive schedule from initiation through rollout. Adherence to a well thought-out implementation plan and effective prioritization will assure that the project goals are met.

Impact

The TeamPlay implementation will allow Weyerhaeuser to improve the performance and delivery of each IT project and to enable management of the entire IT project portfolio and resource supply/demand at an enterprise level.
