

Meeting Your Business Challenges

In today's competitive business climate, costs are escalating & budgets are shrinking. This means organizations are constantly challenged to prioritize their projects, increase speed and efficiency of project execution, reduce spending, reduce risk, achieve repeatable project success and maximize their investments.

How We Help:

- Elevate project management capabilities and maturity.
- Optimize resource supply and demand.
- Monitor portfolio performance.
- Increase speed and efficiency of project execution.
- Achieve repeated project success.
- Timely and accurate executive reporting.

Who is IMS?

IMS is a full-service project management solution provider. We help organizations deliver projects that change the world. We do this by increasing their capabilities to manage their portfolio of projects. We are headquartered in Plano, TX with staff nationwide. Since 1993, IMS has worked hand in glove with our clients to successfully implement scalable projects, programs, and portfolio management systems.

Why is IMS Different?

Partnering with IMS will build a foundation for incremental gains and long-term value. With IMS, you get experienced professionals who have successfully applied their project management knowledge to a wide variety of industries and circumstances. Our success comes from a philosophy of teamwork and a commitment to client satisfaction. Adhering to these principles and our values has resulted in a list of satisfied clients.

Project Management Consulting

IMS' team of experienced professionals can assist with:
PPM Systems and Process Evaluations

The team of experts at Innovative Management Solutions can perform a Project Portfolio Management (PPM) Systems and Process Evaluation. We will analyze your current efforts and develop a strategy for success based on best practices and years of experience. Our main objective is to uncover inefficiencies within your current project structure in order to recommend a solution that provides the best ROI. This evaluation provides your organization with the information and expert analysis to restore confidence in making decisions on project management systems and procedures.

Project Portfolio Management

IMS has teamed up with project portfolio management software companies to provide implementation and integration services. IMS will work with your project team to implement project management tools and processes according to your organizations needs. We will assist you in achieving your objectives through implementing a scalable project management system.

IMS' project portfolio management strategy focuses on four major areas:

- Readiness Assessment
- Design, Prototype, Pilot, and Rollout
- Process Development
- PPM Tool Training

Technical Services

IMS Technical Services include PM Software Installation, Software Integration, Data Migration, Application Hosting, Custom Report Writing, Dashboard Development, Workflow Development, and Custom Application Development. IMS provides ongoing support to enable clients to rapidly adapt as needs change and project complexity increases.

Training Services

IMS is a Global Registered Education Provider for the Project Management Institute (PMI). IMS offers a wide variety of Project Management and Oracle Primavera training at various state-of-the-art facilities across the nation.

Product Training - IMS is an Oracle Partner, a certified Oracle Primavera Trainer, and Oracle Primavera's #1 Training Partner, training over 10,000 professionals and a "go-to" solution provider for implementation services. We can help you organization achieve new standards of productivity and higher levels of effectiveness using your Oracle Primavera products.

Project Management Knowledge (Training) - IMS can assist your company in achieving increased project management knowledge through practical application, training, and education.

Staff Augmentation Services

IMS can support your project teams by augmenting your staff with qualified, experienced, and trained resources. We carefully screen, interview, and test all staff we hire and then match their experience and skill sets with your specific needs. The staff we provide have the appropriate PM knowledge, expertise, and tool training required by your company. In addition, IMS can also provide customized training courses that include client processes. This allows them to work productively as soon as they arrive on-site. By augmenting your project teams with IMS' resources, you have direct daily access to IMS' project management consulting expertise and ongoing professional development.

Managed Services

IMS provides a variety of managed services, whether it's outsourcing the support of your Project Management Application, such as hosting, technical/functional support, training, and executive reporting. We can also manage a piece of the entire project control requirements of a project or portfolio for you organization. We can support operations, engineering, or the PMO. We provide the tools, technology, process, and the people necessary to help your organization manage it's project or portfolio of projects. Our services include the development of a project management plan, and then manage it for your. Our specialty is in the planning, execution, and control of the scope, time, resource, risk, and communication management of projects.

What Our Clients Say

"I would recommend IMS to any client who is seeking a highly qualified, results oriented project management firm with the unique combination of project management expertise and in depth Primavera software tool knowledge."

Ken Smith, Manager Consulting Professional Services, Primavera Systems, Inc.

"IMS' professionalism, depth and breadth of knowledge concerning project management software tools, processes and organization has been outstanding. IMS demonstrated outstanding flexibility in meeting the needs of BNSF."

John Burke, Senior Manager BNSF Railway Company

"Innovative Management Solutions not only employs talented, experienced people but they are a company of integrity and high ethical standards. Simply put, they will do whatever it takes to exceed your expectations and get the job done right. I recommend IMS to anyone needing a solution for managing projects or people better, improving business processes, or successfully implementing a software solution. IMS is truly a world-class organization."

Ryan Laughlin, Director Project Management Technology National Oilwell Varco

"Their ingenious suggestions enabled us to develop a sound approach to the problem and their perseverance and dedication enabled us to develop, refine, document, and deliver a complete and accurate product."

*Henry P. Dolim Jr., JPATS System Engineering
Michael G. Major, JPATS Program Manager
Northrop Grumman*

"IMS did whatever it took to get the job done, and under IMS' direction, the problems we were experiencing evaporated."

*Lou Amorosi, Taurus Deputy Project Manager
Orbital Sciences Corporation*

"... performed beyond expectations. Their long hours and dedication to produce a quality product earned them the respect of all with whom they worked."

*M.G. Foot, Operations & Maintenance Consultant
British Petroleum*

"Their efforts have resulted in a level of management sophistication unmatched in our industry giving us a distinct advantage over our competitors."

*Curtis Quillin, President
Quillin Construction*

"IMS helped bring order out of chaos by working hand in hand with VA senior leadership in the construction of an integrated master schedule."

"IMS has been and continues to be a trusted source for management consultation and project management solutions for the Department of Veterans Affairs."

*Gerald J. Lowe, Program Manager, Information & Technology
Department of Veterans Affairs*

"A program of this size requires the involvement of several contractors and departments working together in a cohesive fashion. Such an undertaking would have been overwhelming without the assistance of IMS. They experience, professionalism, and expertise IMS provided to this project were unmatched."

*Patrick M. Casey, AIA - Senior Project Controls Manager
New Parkland Campus, Office of Program Management*
